

Reseller Center

For cPanel & WHM version 68

(WHM >> Home >> Resellers >> Reseller Center)

Overview

This interface adds or removes reseller status for existing accounts, and allows you to access WHM's other reseller-related interfaces.

Add/Remove Reseller Account Privileges

Note:

Use this feature to modify reseller status for existing accounts. To create a new account, use the [Create a New Account](#) interface (WHM >> Home >> Account Functions >> Create a New Account).

This section of the interface allows you to modify reseller status for existing accounts. You can perform the following actions:

Action	Description
<i>Add Reseller Account Privileges</i>	Select the account to which to grant reseller status and click <i>Add</i> . Note: If you want the new reseller to own their own account, select the <i>Make the new reseller own their own account</i> checkbox.
<i>Remove Reseller Account Privileges</i>	Select the reseller account for which to remove reseller status and click <i>Remove</i> .

Change Account Ownership/Email Resellers

In this section, you can choose from the following actions:

Action	Description
<i>Change Ownership of an Account</i>	Redirects you to WHM's Modify an Account interface (WHM >> Home >> Account Functions >> Modify an Account).
<i>Email All Resellers</i>	Redirects you to WHM's Email All Resellers interface (WHM >> Home >> Resellers >> Email All Resellers).
<i>Reset Resellers' Permissions</i>	Redirects you to WHM's Reset Resellers interface (WHM >> Home >> Resellers >> Reset Resellers).

Reseller Actions for

Select the reseller account that you wish to modify from the *Reseller Actions for* menu, and then choose from the following actions:

Action	Description
<i>Edit Reseller Privileges and Nameservers</i>	Redirects you to WHM's Edit Reseller Nameservers and Privileges interface (WHM >> Home >> Resellers >> Edit Reseller Nameservers and Privileges).

Change Ownership of Multiple Accounts	Redirects you to WHM's Change Ownership of Multiple Accounts interface (<i>WHM >> Home >> Resellers >> Change Ownership of Multiple Accounts</i>).
View Reseller Usage and Manage Account Status	Redirects you to WHM's View Reseller Usage and Manage Account Status interface (<i>WHM >> Home >> Resellers >> View Reseller Usage and Manage Account Status</i>).
Manage IP Address Delegation	Redirects you to WHM's Manage Reseller's IP Delegation interface (<i>WHM >> Home >> Resellers >> Manage Reseller's IP Delegation</i>).
Manage Reseller's Shared IP Address	Redirects you to WHM's Manage Reseller's Shared IP interface (<i>WHM >> Home >> Resellers >> Manage Reseller's Shared IP</i>).
Log in to WHM	Log in to the WHM interface for that account with the <code>root</code> or a root-enabled reseller's password.
Log in to cPanel	Log in to the cPanel interface for that account with the <code>root</code> or a root-enabled reseller's password.
