Description

This function displays the HTML for cPanel's *Disk Space Usage* interface (*Home >> Files >> Disk Space Usage*).

Warning:

cPanel API 1 is **deprecated**. We **strongly** recommend that you **do not use** cPanel API 1. However, no equivalent function exists in our newer APIs.

Warning:

We removed this function in cPanel & WHM version 54.

Examples

▼ LiveAPI PHP Class

```
$cpanel = new  
CPANEL(); // Connect  
to cPanel - only do  
this once.  
$show_disk_usage =  
$cpanel->apil('DiskUs  
age', 'showmanager',  
array ('2', '1', '',  
'1', '/mail', 'top',  
'increase', '1', '0',  
'trash.html',  
'image/index.html',  
'0', '1') ); // Call  
the function.
```

Note:

For more information, read our [Guide to the LiveAPI System](#).

Function information

About this module

The DiskUsage module allows you to view DiskUsage information.

About cPanel API 1

cPanel API 1 accesses information about cPanel accounts.

▼ LiveAPI Perl Module

```
my $cpliveapi =  
Cpanel::LiveAPI->new(  
); # Connect to  
cPanel - only do this  
once.  
my $show_disk_usage =  
$cpliveapi->apil('DiskUsage',  
'showmanager', ['2',  
'1', '', '1',  
'/mail', 'top',  
'increase', '1', '0',  
'trash.html',  
'image/index.html',  
'0', '1']); # Call  
the function.
```

Note:

For more information, read our [Guide to the LiveAPI System](#).

▼ cPanel Tag System (deprecated)

Warning:

In cPanel & WHM version 11.30 and later, cPanel tags are **deprecated**. We provide this example to help developers move from the old cPanel tag system to our [LiveAPI](#) system. We **strongly** recommend that you **only** use the LiveAPI system to call the cPanel APIs.

```
<cpanel  
Module="DiskUsage::showmanager (  
$FORM('level','clear',  
'parents','sort','showtree','diskaction',  
'mainaction','humanbytes','skipmail','actionfile',  
'homeimage','disable_delete','sort_directi  
on'))">
```

Warning:
cPanel API deprecated. We **strongly** recommend cPanel API or UAPI instead.
