Overview

These settings allow you to specify how mail should be routed for the new account.

Mail Routing Settings

Select one of the following settings:

Setting	Description
---------	-------------

<i>Automatically Detect Configuration</i>	Automatically detect which setting to use. <div style="border: 1px solid #f0e68c; padding: 5px; margin-top: 10px;">Note: We recommend that you select this setting.</div>
<i>Local Mail Exchanger</i>	Accept mail locally for the new domain.
<i>Backup Mail Exchanger</i>	Configure the server to be a backup mail exchanger for this domain.
<i>Remote Mail Exchanger</i>	Do not accept mail locally for this domain.
