

# Webalizer

For cPanel & WHM version 60

(Home >> Metrics >> Webalizer)

## Overview

The *Webalizer* interface displays traffic statistics from the Webalizer statistics program.

## View your Webalizer statistics

To view Webalizer statistics for a domain, click *View* for the domain that you wish to view. A new interface will appear that displays a graph and a summary of the Webalizer traffic statistics for that domain.

To view detailed statistics for a month, click that month's link. A new interface will appear that displays charts and tables with the following information:

- Daily and hourly statistics in graphs and tables.
- The links through which visitors access your website.
- HTTP codes.
- Operating systems
- Browser information.
- Countries of origin.

## Additional information

- For more information about Webalizer, visit [the Webalizer website](#).
- To view all possible configuration options for Webalizer, visit [Configuration Files Documentation for Webalizer](#).
