## Overview

cPanel & WHM is specifically tested with certain browsers to ensure compatibility. Other browsers should still function, but may display differently or experience issues with certain features.

## Compatible browsers

cPanel & WHM is developed to function with the latest versions of the following browsers:

- Chrome (Mac®, Windows®, Linux)

- Firefox (Mac, Windows, Linux)
- Internet Explorer (Windows)
- Safari® (Mac)

Mobile versions of Firefox, Chrome and Safari are also compatible with cPanel & WHM.

**Note:**

In these browsers, some email features are supported. The interfaces in cPanel & WHM will likely function, but there may be minor defects or inconveniences that are related to specific functionality.
