

Change Style

For cPanel & WHM version 60

(Home >> Preferences >> Change Style)

Overview

Use this interface to choose a style in order to customize the cPanel interface's appearance.

Notes:

- If you are a reseller and wish to customize a style, read our [Guide to cPanel Interface Customization - cPanel Style Development](#) documentation.
- For instructions to apply styles via the command line, read our [Guide to cPanel Interface Customization - Apply Styles](#) documentation.

Change the style

To change your interface's style, click *Apply* for the desired style. The interface will refresh in the newly-selected style.

To set a style as the default style, click *Set as Default* for the desired style.

Note:

When you set a style as the default style, the system does **not** automatically apply that style to your account. You must **also** click *Apply* to apply that style for your account.
