The WHM Interface

Overview

The WHM interface provides the server's `root` user and resellers with access to all of WHM's server administration features.

The WHM interface consists of the following sections:

1. Top navigation bar
2. Side navigation menu
3. Support menu
4. Features

Top navigation bar

WHM's top navigation bar remains visible as you navigate throughout the WHM interface.

- Click *News* to view important news and announcements from cPanel, Inc.
- Click *Change Logs* to view the cPanel & WHM change logs.
- Click *Logout* to log out of your WHM account.
- Click *Load Averages* to navigate to WHM's *Process Manager* interface (*WHM >> Home >> System Health >> Process Manager*). The numbers that follow this link represent the server's one-minute, five-minute, and 15-minute load averages, respectively.

You may also see important server notices in this section of the interface. For example, if the most recent attempt to upgrade cPanel & WHM failed, you may see a *The last attempt to update cPanel & WHM was blocked.* warning, which you can click to review a list of upgrade blockers.

Side navigation menu

The side navigation menu in WHM provides quick access to all of WHM's interfaces, and allows you to quickly search for specific features.

- To search for a feature, enter one or more keywords in the text box and click the search icon (

).
- To quickly navigate to a WHM interface, use the menu of available features:
  - To expand or collapse all menu sections with one action, click the expand icon (

) or collapse icon (

) at the top of the menu, immediately below the search text box.
  - To expand or collapse a single menu section, click the arrow icon (

) for that section.
  - To access a WHM section, click that section's name in the menu.
  - To access a WHM interface, click that interface's name in the menu.
  - To hide or show the navigation menu, click the collapse icon (

).

Support menu

Click the lifesaver icon that floats on the right side of the interface (

) to view the *Support* menu.

- Click *cPanel & WHM FAQ* to access our cPanel Knowledge Base documentation.
- Click *Support Forums* to access the cPanel Forums.
- Click *Documentation* to access the main page of our WebHost Manager - WHM User Documentation documentation (from WHM's *Home*

interface) or the documentation for the current interface (from other WHM interfaces).
- Click *Contact cPanel* to begin the process to submit a ticket to cPanel Technical Support.

Features

The WHM interface lists of all of your account's available features in sections for different types of functionality. For more information about WHM's features and interfaces, read our WHM Features List documentation.

Trial license banner

Servers that use a trial license display a banner above the WHM *Home* interface's icons. This banner displays the server's trial license status, and you can click *Purchase a License* to buy a full cPanel, Inc. license. For more information, read our How to Purchase a cPanel License documentation.
