Overview

This document explains how to create and delete a demo account. These accounts allow users, such as potential customers, to navigate the features of cPanel & WHM. The users will not be able to make changes to any files or settings.

How to create a demo account

To create a new demo account, perform the following steps:

1. Log in to WHM.
2. Navigate to WHM's *Create a New Account* interface (*WHM >> Home >> Account Functions >> Create a New Account*).
3. Enter a domain name in the *Domain* text box.
4. The *Username* text box will auto-populate or you can create a custom username.
5. Create a custom password, or use the *Password Generator* feature.
6. Enter a contact email address in the *Email* text box.
7. Click *Create* to use default settings, or choose any desired settings.
8. Navigate to WHM's *Manage Demo Mode* interface (*WHM >> Home >> Account Functions >> Manage Demo Mode*).
9. Select the account that you created.
10. Click *Modify*.
11. Click *Enable*.

How to delete a demo account

To delete a demo account, perform the following steps:

1. Navigate to WHM's *Terminate Accounts* interface (*WHM >> Home >> Multi Account Functions >> Terminate Accounts*).
2. Select the demo account that you wish to delete.
3. Click *Remove*.
