

Manage Plugins

For cPanel & WHM version 60

(Home >> cPanel >> Manage Plugins)

- [Overview](#)
- [Install a plugin](#)
- [Uninstall a plugin](#)
- [Additional documentation](#)

Overview

The *Manage Plugins* interface allows you to add and remove plugins. Plugins provide additional functionality for your server. The plugins that this interface lists vary from server to server.

Install a plugin

To install a plugin, perform the following steps:

1. Select the *Install and Keep Updated* checkbox for the plugin that you wish to install.
2. Click *Save*.

Note:

Installed plugins appear at the bottom of the WHM feature menu on the left side of the interface.

Uninstall a plugin

To uninstall a plugin, click *Uninstall* next to the plugin that you wish to uninstall.
