Step 6:

[Set Up Quotas](#)

Welcome to cPanel & WHM

When you log in to WHM for the first time on a new cPanel & WHM server, the *Initial Setup* wizard will display. This interface allows you to configure the basic settings for your new cPanel & WHM server.

Note:

If you have not already installed cPanel & WHM on your server, use our [Installation Guide](#) to complete the installation process.

cPanel & WebHost Manager End User License Agreement

The first section of the *Initial Setup* wizard displays cPanel & WHM's End User License Agreement (EULA), which provides the terms under which you will use cPanel, Inc.'s software. Read the EULA carefully.

Remember:

If you have questions about your license agreement, contact [cPanel Customer Service](#).

Agree and continue

Click */ Agree/Go To Step 2* to proceed to the next step in the wizard.

Important:

- You **must** agree to cPanel's EULA to continue in the *Initial Setup* wizard.
- If you click *I Disagree*, a confirmation message will appear. If you click *OK* for this message, you will automatically log out of WHM. The *Initial Setup* wizard will appear again the next time that you log in to WHM.
