

# cPanel User Documentation - x3

## Warning:

This document describes functionality from cPanel's **deprecated** x3 theme. We **strongly** recommend that you use cPanel's current theme (Paper Lantern) instead.

- We **removed** the deprecated x3 theme from new installations in cPanel & WHM version 60.
  - Make **certain** that you read the appropriate documentation for your version of cPanel & WHM.
  - For more information, read our [What's My Version Number](#) documentation.
- cPanel's Paper Lantern theme does **not** include certain x3 theme-specific features.
  - For a complete list of Paper Lantern features, read our [cPanel Features List](#) documentation.
  - If you need a feature that the Paper Lantern theme does not include, submit a feature request.

This documentation describes the features of the cPanel interface.

- [How to Access cPanel & WHM Services](#) — This document details how to log in to cPanel, WHM, and Webmail.
- [The cPanel Home Interface - x3](#) — This document describes the *Home* interface, which provides access to all of your cPanel functions.
- [Preferences - x3](#) — These documents describe the features in the *Preferences* section. This section includes a setup wizard and general cPanel settings.
- [Mail - x3](#) — These documents describe the features in the *Mail* section. This section includes all of cPanel's email-related features.
- [Files - x3](#) — These documents describe the features in the *Files* section. This section includes cPanel's backup system, file managers, HTML editor, FTP configuration, and *Web Disk* configuration.
- [Logs - x3](#) — These documents describe the features in the *Logs* section. This section includes error logs, information about bandwidth usage, and statistical analysis software.
- [Security - x3](#) — These documents describe the features in the *Security* section. This section includes shell access, leech protection, hot link protection, and other security-related features.
- [Domains - x3](#) — These documents describe the features in the *Domains* section. This section includes features that allow you to manage subdomains, addon domains, parked domains, and redirects.
- [Databases - x3](#) — These documents describe the features in the *Databases* section. This section includes features that allow you to manage MySQL® and PostgreSQL® databases.
- [Software and Services - x3](#) — These documents describe the features in the *Software and Services* section. This section includes features that allow you to install Perl packages, and manage CGI and PHP and PEAR packages.
- [Advanced - x3](#) — These documents describe the features in the *Advanced* section. This section includes features that allow you to manage advanced cPanel tasks (for example, cron jobs or MIME types).
- [Password Generator - x3](#) — You can use the *Password Generator* to generate secure passwords for your accounts.
